Education

The University of Hong Kong

Bachelor of Arts and Science in Applied Artificial Intelligence (BASc(AppliedAI)) Sep 2023 – Jul 2027 (Expected)
• **CGPA:** 3.62/4.30 (Expected First Class Honors) **Second Major:** Computer Science
• **Awards:** Dean's Honor List (2025-26), Endeavour Merit Award (2024-25, 2025-26)

Fudan University, Shanghai, China

Computer Science and Technology (HKU Worldwide Student Exchange) Sep 2026 – Jan 2027 (Expected)
• **Focus:** Cloud Computing, Frontier Practice of AI, Natural Language Processing, Operating System, Software Design, Parallel Computing

Professional Experience

FWD Group Management Holdings Limited

Summer Intern, Finance Cloud Infrastructure and Operations, Group Technology Services Jun 2026 – Aug 2026
• Enhanced scheduled AWS Lambda automation for **Amazon WorkSpaces** by reporting inventory changes between runs, reducing manual comparison and accelerating inventory review.
• Automated monitoring of **Amazon FSx for NetApp ONTAP** storage utilization and identifying snapshot and metadata cleanup to temporarily free SSD capacity, keeping file systems usable under growing storage demand.
• Supported training activities for product managers to better understand how internal tooling (Skills, MCP) can accelerate workflows.
• Skills: AWS (WorkSpaces, FSx for NetApp ONTAP, CloudWatch, EventBridge, Lambda, S3, IAM, VPC)

Radio Television Hong Kong (RTHK)

Summer Intern, Engineering Section (Broadcast Systems), Production Services Division Jun 2025 – Aug 2025
• Researched correction of Cantonese subtitle transcription errors with Jyutping and LLM-based methods.
• Developed video post-processing tool with AI visual features using **MediaPipe** for a visitor workshop; enabled a one-button automated workflow to record, save, add effects, and playback, generating hundreds of unique showcase videos.
• Skills: Automatic Speech Recognition, Motion Capture, Computer Vision

InspireLab Limited

Summer Intern, Embedded Software May 2024 – Aug 2024
• Engineered a **RISC-V** microcontroller STEM toolkit, integrating 5+ open-source libraries and controlling over **64+ I/O components**.
• Skills: Embedded Software Programming, RISC-V, Assembly Code, C/C++ Build Systems

Project Experience

AI Team Member, Nocodile AI (Student Interest Group in Innovation Wing)

Feb 2026 – Current
• Developing backend automated scalable AI training infrastructure on **Azure Container Apps** with serverless A100 GPU.
• Skills: Azure (Container Apps Jobs, Log Analytics Workspace, Container Registry), Object Detection (YOLO), Edge Model Deployment, Docker

HKU Graduate Employment Survey RAG Agentic Chatbot (Group Project)

Apr 2026 – May 2026
• Delivered a **no-code agentic chatbot** capable of answering **open-ended** employment data analysis and visualization queries through research loops and **Retrieval-Augmented Generation** on hundreds of **multimodal** PDFs.
• Skills: GraphRAG, Tool Use, Agent Skills, Harness Engineering

30-Day All-Cause Hospital Readmission Prediction with MIMIC-IV (Group Project)

Oct 2025 – Dec 2025
• Applied **advanced machine learning techniques** (Stacked Generalization, Automatic Machine Learning, ModernBERT LoRA fine-tuning), achieving 10% improvement in AUROC over baseline models.
• Identified and reported **future data leakage** in the dataset that inflated AUROC to 0.95, demonstrated how such flaws lead to over-optimistic models that fail in clinical production.
• Skills: AutoML, Data Leakage, Data Analysis and Visualization, Model Fine-Tuning, Feature Engineering

alphahku.vercel.app

July 2025 – Aug 2025
• Developed a static website for a student organization using **Next.js**, shadcn/ui, Tailwind CSS, and deployed on Vercel.
• Skills: Next.js, Tailwind CSS, TypeScript, Frontend Design, Vercel, SEO, UX

Misc

Languages: Cantonese (Native), Mandarin (Fluent), English (Fluent)
Courses: Algorithm Design and Analysis (A), Computer Networks (A+), Deep Learning (A+), CUDA Programming (A+), AI Agents (A+), Web Development (A+), DBMS (A-), Java (A)
Certification: AWS Certified AI Practitioner (Jul 2026), Cloud Practitioner (Aug 2026)
Achievements: Kaggle Notebook Expert (Mar 2026)
Interests: MLOps, CloudOps, DevOps, AI Agents, Computer Networks
