Education

The University of Hong Kong

Bachelor of Arts and Science in Applied Artificial Intelligence (BASc(AppliedAI))

Sep 2023 – Jul 2027 (Expected)

- **CGPA:** 3.62/4.30 (Expected First Class Honors) **Second Major:** Computer Science
- **Awards:** Dean's Honor List (2025-26), Endeavour Merit Award (2024-25, 2025-26)

Professional Experience

FWD Group Management Holdings Limited

Summer Intern, Finance Cloud Infrastructure and Operations, Group Technology Services

Jun 2026 – Current

- Enhancing scheduled AWS Lambda automation for **Amazon WorkSpaces** by reporting inventory changes between runs, reducing manual comparison and accelerating inventory review.
- Automating monitoring of **Amazon FSx for NetApp ONTAP** storage utilization and identifying snapshot cleanup and metadata resets to temporarily free SSD capacity, keeping file systems usable while users delete files.
- Developing reusable Agent Skills for cloud operation workflows, reducing repeated manual setup and onboarding time.
- Skills: Amazon WorkSpaces, Amazon FSx for NetApp ONTAP, AWS Lambda, AIOps

Radio Television Hong Kong (RTHK)

Summer Intern, Engineering Section (Broadcast Systems), Production Services Division

Jun 2025 – Aug 2025

- Researched correction of Cantonese subtitle transcription errors with Jyutping and LLM based methods.
- Developed video post-processing tool with AI visual features using **MediaPipe** for a visitor workshop; enabled a one-button automated workflow to record, save, add effects, and playback, generating hundreds of unique showcase videos.
- Skills: Automatic Speech Recognition, Motion Capture, Model Fine-Tuning, Computer Vision

InspireLab Limited

Summer Intern

May 2024 – Aug 2024

- Engineered a **RISC-V** microcontroller STEM toolkit, integrating 5+ open-source libraries and controlling over **64+ I/O components**.
- Skills: Embedded Software Programming, RISC-V, Assembly Code, C/C++ Build System

Project Experience

Nocodile AI (Student Interest Group, AI Education Initiative)

Feb 2026 – Current

- Developing backend automated scalable AI training infrastructure on **Azure Container Apps** with A100 Serverless GPU.
- Skills: Azure Container Apps, Serverless GPU Inference, Object Detection

HKU Graduate Employment Survey RAG Agentic Chatbot (Group Project)

Apr 2026 – May 2026

- Delivered a **no-code agentic chatbot** capable of answering **open-ended** employment data analysis and visualization queries through research loops and **Retrieval-Augmented Generation** on hundreds of **multimodal** PDFs.
- Skills: GraphRAG, Tool Use, Agent Skills, Harness Engineering

30-Day All-Cause Hospital Readmission Prediction with MIMIC-IV (Group Project)

Oct 2025 – Dec 2025

- Applied **advanced machine learning techniques** (Stacked Generalization, Automatic Machine Learning, ModernBERT LoRA fine-tuning), achieving 10% improvement in AUROC over baseline models.
- Identified and reported **future data leakage** in the dataset that inflated AUROC to 0.95, demonstrated how such flaws lead to over-optimistic models that fail in clinical production.
- Skills: Advanced Machine Learning, Data Leakage, Data Analysis and Visualization, Model Fine-Tuning, Feature Engineering

alphahku.page

July 2025 – Aug 2025

- Developed a static website for a student organization using **Next.js**, shadcn/ui, Tailwind CSS, and deployed on Vercel.
- Skills: Next.js, Tailwind CSS, TypeScript, Frontend Design, Vercel, SEO, UX

Stock Market Simulator (Group Project)

Apr 2024

- **Reduced time-to-market and developer friction** by implementing CI/CD pipelines on 3 platforms using GitHub Actions, automating compilation and code checks for all pull requests.
- Skills: CI/CD, GitHub Actions, C/C++ programming, Build Systems (CMake, Makefile), Cross-platform Development

Misc

Languages: Native Cantonese, Fluent Mandarin and English

Interests: Model Training and Deployment, Cloud Computing, AI Agent Engineering, Computer Networks

Courses: Algorithm Design and Analysis (A), Computer Networks (A+), Deep Learning (A+), CUDA Programming (A+), AI Agents (A+), Web Development (A+), Python (A+)

Certification: AWS Certified AI Practitioner (Jul 2026)
